

## **Invitation to the Post-2020 Global Biodiversity Framework and Drylands Dialogue**

Author: Wang Jing

### **Abstract:**

Biodiversity conservation and sustainable development of drylands play a vital role in global ecological construction. In order to build a community of shared future in the drylands, and to make drylands' biodiversity and climate change issues be listed in the UN Post-2020 Global Biodiversity Framework, China Biodiversity Conservation and Green Development Foundation held the Post-2020 Global Biodiversity Framework and Drylands Dialogue (The International Summit on Biodiversity Conservation (2022/1) on January 5 to 6, 2022.

**Key words:** a community of shared future in drylands, Post-2020 Global Biodiversity Framework, global ecological construction
